South Auckland Peace Project towards Thriving Communities

Do you want to become a peace leader in your community?

We believe change is possible and young people have the power to make a difference. That's why the Peace Foundation is looking to train youth leaders to help create safe, respectful, thriving communities.

We are starting with South Auckland. This is an exciting opportunity for 12 young leaders to come together and co-create for change. If you are aged between 17-23 and you live in South Auckland, we welcome your application. To apply, you need passion to make a positive difference and a potential idea for running a project within your community. We will provide you with certified leadership training to assist you to fulfil your project successfully and advance your future career. All applications will be considered. Candidates will be chosen on 23 October 2017.

Email your application to: peace@peacefoundation.org.nz marking your email with the subject "South Auckland Peace Project for Thriving Communities", and give your name and contact details. Please answer the following questions:

1. What difference could you make in your community?
2. What idea do you have for a potential way to improve your neighbourhood/school to help create safe and thriving communities in South Auckland? Share an idea or two.
3. Why should we choose you? Feel free to use any medium you wish. Send us your application in writing, video, or audio.

Good Luck!

Christopher Le Breton
